### **\*The True Cost of Camp and our Tiered Pricing Structure\* (for those events with three prices listed)**

You know your family's financial situation better than we do. As you consider your family's financial situation, please also consider the true cost of camp.

On each camp's description, you will find three different camp prices. You get to choose the ones that best fits your family's ability to pay.

**Rate A:** The lowest price is a subsidized rate and is only available through May 4<sup>th</sup>.

**Rate B:** The middle price is the amount we spend during the week of camp for your camper to participate. These costs include all food, preparation of food, camp maintenance, program supplies and training, food and lodging for camp volunteers.

**Rate C:** The third price is the closest to the true price of an individual's participation at camp. This includes insurance, utilities, replacement of equipment and facility upgrades.

Please carefully consider the amount that your family can afford. If the middle price seems comfortable, choose it. If you think you can help with some of the bigger expenses of the camps, please choose the higher price. And remember, our practice is that no one is turned away for a lack of funds. If paying for camp is a significant challenge for your family, please contact the pastor of your local church or the Camp Coordinator in the Office of the Diocese. We want to welcome everyone to camp because we believe the experience of Christian community and the life-long relationship with Jesus is priceless.
